

STONEBRIDGE CAPITAL

Offering Memorandum

Class B+ Suburban Infill Multifamily

248 Units | Built 2006
4400 Prairie Crossing
Denver, Colorado 80238

This is a fictional, pseudonymous demo fixture prepared for internal Soapbox RSRA (Rapid Sustainability Risk Assessment) product testing. No real property, sponsor, broker, or individual is represented. All names and figures are invented.

Executive Summary

Investment Overview

Stonebridge Capital is pleased to offer 4400 Prairie Crossing, a 248-unit Class B+ garden-style multifamily community in the Central Park submarket of Denver, Colorado. Built in 2006 and situated on 13.2 acres, the property offers new ownership a stabilized, well-located asset with an identified value-add and sustainability capital program.

Investment Summary	
Price	Priced by Market
Year Built	2006
Total Units	248
Net Rentable Area	232,360 SF
Average Unit Size	937 SF
Average Effective Rent	\$1,618 per unit \$1.73 per SF
Occupancy (as of Jun 2026)	92%
Leased (as of Jun 2026)	95%
Trailing NOI	\$3,650,000 (est.)
Implied Cap Rate	~5.7%

Investment Highlights

- Infill Denver location within the Central Park master-planned community, close to employment corridors, transit, and A-rated schools.
- Stabilized occupancy with embedded rent upside — in-place rents trail submarket comparables by an estimated 6-8%.
- Identified sustainability capital program (see Section 4) addresses aging central mechanical systems while qualifying for federal and utility incentives.
- Limited new competitive supply within a 2-mile radius.

Property Description

Site & Construction

Attribute	Detail
Number of Buildings	12 three-story garden buildings + clubhouse/leasing office
Site Size	13.2 acres (18.8 units/acre)
Foundation	Post-tensioned slab-on-grade
Framing	Wood frame
Exterior Walls	Brick veneer and cementitious fiber-cement siding
Roofing	Asphalt shingle, original 2006 install — approaching typical 20-yr replacement
Windows	Vinyl-framed double-pane, 2006-code (non-low-E)
Parking	Detached garages (48) + surface lot (398 spaces), 1.8 spaces/unit

Unit Mix

Unit Type	Units	Avg SF	Avg Effective Rent
Studio	24	550	\$1,290
1 Bed / 1 Bath	124	850	\$1,480
2 Bed / 2 Bath	76	1,080	\$1,780
3 Bed / 2 Bath	24	1,320	\$2,150
Total / Weighted Avg.	248	937	\$1,618

Mechanical, Electrical & Building Systems

The following systems summary is provided to support buyer capital planning and sustainability due diligence.

Heating, Ventilation & Air Conditioning

- In-unit space heating and cooling: individual gas-fired furnaces paired with electric split-system condensers, original 2006 vintage, resident-metered.
- Common-area HVAC: packaged rooftop units serving the clubhouse and leasing office, replaced 2018.
- No central chiller plant; no known R-22 refrigerant systems remaining in service.

Domestic Hot Water

- Central natural gas-fired boiler plant (two boilers, original 2006 install) serves domestic hot water to all 248 units; landlord-paid, submetered to common area only.
- No documented boiler replacement or upgrade since original construction.

Envelope

- Wall assembly: 2x6 wood frame, R-13 batt insulation (2006 energy code minimum).
- Roof: asphalt shingle over vented attic, R-30 blown insulation, original install — nearing typical 20-year replacement window.
- Windows: vinyl-framed double-pane, non-low-E, original to construction.

Utility Structure

Electricity: resident submetered (in-unit) via Xcel Energy Colorado; landlord pays common-area electric. Natural gas: landlord pays 100% (central DHW boiler plant) and residents are separately billed for in-unit furnace gas. Water/sewer: landlord-paid, billed back via RUBS.

Financial Analysis

Operating Summary (Trailing 12 Months, illustrative)

Line Item	Annual (\$)	Per Unit (\$)
Gross Potential Rent	4,815,000	19,415
Vacancy / Concessions Loss	(385,000)	(1,553)
Other Income (RUBS, fees, parking)	312,000	1,258
Effective Gross Income	4,742,000	19,121
Operating Expenses	(1,092,000)	(4,403)
incl. Natural Gas (Common DHW Plant)	(96,000)	(387)
incl. Common-Area Electric	(58,000)	(234)
Net Operating Income	3,650,000	14,718

Pricing Guidance

Metric	Value
Asking Price	\$64,000,000 (~\$258,065/unit)
Implied Going-In Cap Rate	5.7%
Terms	All-cash preferred; conventional financing considered

Area Overview & Sustainability Considerations

Denver / Central Park Submarket

4400 Prairie Crossing is located in the Central Park submarket of northeast Denver, Colorado, within the City and County of Denver. The submarket benefits from proximity to the 40th & Colorado transit station, A-rated Denver Public Schools, and established retail along Central Park Boulevard.

Regulatory Note

The property is subject to the City and County of Denver's Energize Denver Building Performance Ordinance (buildings greater than 25,000 SF), which sets declining building-specific Energy Use Intensity (EUI) targets with interim and final compliance years. Buyers should confirm the property's current benchmarking status and any capital plan required to meet upcoming interim targets.

Physical Risk Note

The Denver front range is subject to elevated severe convective storm (hail) frequency. Prospective buyers should review current property and casualty coverage, including wind/hail deductible structure, as part of due diligence.
